**COMMUNICATION BEFORE INTERVIEW**

Sir:

This communication is being submitted preparatory to an interview for the above captioned application.

**Status of claim rejections**

Independent Claims 1 to 4 and all their dependent claims 5-8, 12-15, 17-20, and 22-25 have been rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art, asserted to be combined with Butterbaugh et al. (U.S. patent 6,124,211), and Honma (JP 07-183240), and (for dependent claims 9, 16, 21, and 26) further combined with Hays (U.S. patent 3,511,727).

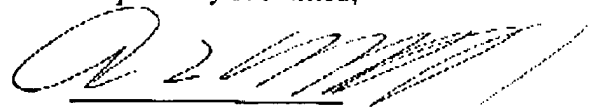

A double-patenting objection is expressed to claim 26 which is the same as claim 21.

**Issues for interview**

The issues to be discussed at the interview are requested to include:

1. the propriety of the combination of Butterbaugh with the description of the prior art expressed at page 1 and 2 of the present application.
2. the propriety of the combination of Honma with the other prior art of the rejection.
3. amendment of claim 26 to depend from claim 22 instead of claim 17 from which it now depends due to a typographical error.

Respectfully submitted,
